## GSE WORKFORCE SOLUTIONS

The industry is facing a critical shortage of experienced operators, engineers, and other technical staff as the tenured, highly-experienced retire from the workforce and a reduced number of new skilled workers replace them. The need for efficient and effective workforce solutions has never been greater.

GSE experts deliver and support end-to-end training, engineering, compliance, simulation, and workforce solutions that help the power industry reduce risk and optimize plant operations. Customers around the world trust our collective knowledge and experience for projects of significance.

## GSE PEOPLE

Our consultants, technical staff and support personnel are prepared to make a difference. Collectively we bring significant plant and field experience to bear, are actively involved in industry organizations and initiatives, and aggressively enhance our knowledge with new technology- and experience-based learning.

GSE consultants possess:

- Extensive, highly specialized knowledge
- Field experience
- Additional unique training and backgrounds to meet niche needs
- Qualification to perform assessments, assist in defining project scope, and successfully manage projects
- Mindset and approach to make a difference immediately
